Train of Thought

Many of us are being more careful with our money this holiday season. Save a bundle and give some gifts from the heart. When you present someone with a handcrafted gift that you made especially for them, they will be thinking of you each time they use it. Packettes of cards, mini journals or scrapbooks, custom calendars, decorated photo frames, and special packages of cookies and candies are always appreciated. Start crafting now so that you'll be ready!!

Always Craftin'
Jackie & Ken ☺
